Unit assembly & turn-key Plug&Play
product preparation.

LARS is a Polish family-owned business operating continuously since 1965. For over 15 years, we have been designing and manufacturing electronic solutions for the railway and public transport industries, collaborating with leading rolling stock manufacturers and operators in **Poland, Germany, and the United States.**

We specialize in custom electronic solutions tailored to individual customer requirements. Our portfolio includes **controllers, power supply units, and a wide range of lighting systems for rail vehicles, such as LED stair nosing profiles, ceiling, emergency, and ambient lighting, reading lights, door indicator lighting, informational displays, and many other custom solutions.**
