

U-BRIDGE LIGHT

The LED U-BRIDGE LIGHT combines elegant design with precise illumination for premium display applications. Its brushed metal finish and refined detailing create a sophisticated appearance, while three rotating LED profiles allow the light to be adjusted from multiple directions for perfect product presentation.

Manufactured to custom dimensions, it integrates seamlessly into display furniture and delivers uniform, high-quality illumination with excellent colour rendering.

Key benefits

- Premium brushed metal finish
- Three-directional illumination
- Rotating LED profiles for precise light adjustment
- Custom-made dimensions
- Excellent colour rendering and uniform light distribution
